Hello and welcome to the Musée Saint-Raymond, Toulouse's museum of Antiquities. Your tour will take you through one of the most important archaeological collections in France. The first floor presents the collections of sculptures brought to light in the Roman villa of Chiragan; the second floor introduces you to ancient *Tolosa* and the Roman province of *Narbonnaise*. Finally, the lower ground floor is devoted to Roman funerary archaeology with sarcophagi and inscriptions relating to the early Christians. Also on the lower ground floor you can see vestiges of the building cleared during excavations.

To help you in your tour:
> Audioguide (english and german): 2 €.
